Plan Description

Equally, at home in the French countryside and your favorite neighborhood, this lovely French Country-style, 1-1/2 story house plan exudes classic style. Double doors, sheltered within a covered porch, open to immediate views of the dining room, as well as a gracefully curved, sunlit staircase, and the great room farther inside. The great room, with an 11-foot-high beamed ceiling, is warmed by a fireplace and brightened by a wall of windows to the rear. The great room, kitchen, and breakfast area lie open to one another. The kitchen includes an island work station and sizeable walk-in pantry. Just steps away is the laundry room with counters and utility sink. An adjoining mud room with bench and lockers acts as a buffer between the home's living areas and the 2-car, side-load garage. Double doors open into the master suite, with a 10-foot-high ceiling. The bath area features his-and-her vanities, walk-in shower, corner soaking tub, compartmented toilet and sizeable walk-in closet. This home plans upstairs, all secondary bedrooms have walk-in closets. Bedrooms 2 and 3 share a Jack-n-Jill bath, while bedroom 4 has its own bath that includes both tub and shower. A sunny, centrally located step-up loft provides a common space to relax or study. The adjacent landing offers a bird's eye view of the entry hall below.
