Depth 40' 0"

### Default Construction Stats

*Stats are unique to the individual plan.*

Foundation Type Slab

Exterior Wall Construction 2x4

Roof Pitches 8/12 Primary

Main Wall Height 9'

## Plan Description

This is a traditional style garage plan built on a slab foundation. The floor plan has ample room for 3 cars or would work as a stand-alone workshop. The added depth allows you to have both! A person door is located on the side for easy access. The Noah also includes an attic space above with windows in each gable to allow for natural light and fresh air. This is the ultimate garage/workshop/storage building.
