Plan Description

Dual charming 3-window dormers are perched above a wide, covered front porch with tapered columns, on this beautiful multi-family home. Inside, guests are immediately received into the home's main-floor living area, where the great room, kitchen and breakfast area all seamlessly interact. The great room enjoys views to the front through the covered porch, and its fireplace exudes a sense of welcoming warmth. A built-in hutch and coat closet flank passage into this area from the entry hall. The kitchen features a breakfast island workspace and openly accesses the breakfast area. Just off the breakfast area lies a powder bath. All bedrooms reside upstairs, where the master suite occupies the home's dormer with sunny views to the front. Bedroom 2 has a central hall bath and features a walk-in closet. A laundry room with utility sink is conveniently located to serve all bedrooms. As always any Advanced House Plans home plan can be customized to fit your needs with our alteration department. Whether you need to add another garage stall, change the front elevation, stretch the home larger or just make the home plan more affordable for your budget we can do that and more for you at Ahp. Unless you purchase an unlimited use license or a multi-use license you may only build one home from a set of plans. Plans cannot be re-sold.
