## Plan Description

This family-oriented, Modern Farmhouse style, 2-story house plan is designed with sensible room arrangements for easy day-to-day living. Upon entering the home from the shelter of a wrapping covered front porch, guests are greeted by expansive views of the great room with its fireplace and sunny rear windows. Adjacent to the entry area is a flexible space that can serve the household in any number of ways. The great room extends to the kitchen and dining area, which accesses a rear deck. The kitchen itself features a breakfast island and walk-in pantry, and it is only a few steps away from the main-floor powder bath, laundry and semi-secluded stairway. Upstairs, the master bedroom enjoys separation from the secondary bedrooms. The master bath features a generous walk-in closet, corner tub, shower and compartmented toilet. Bedrooms 2, 3 and 4 each have walk-in closets and share a centrally located hall bath.
