Plan Description

The Camden is a charming cottage style multi-family house plan with a great floor plan to match! Each 2 bedroom unit has an open living room perfect for entertaining. The master suite also has a roomy walk-in closet not found in homes this size. The footprint will fit almost any lot and the curb appeal will welcome you home. As always any Advanced House Plans home plan can be customized to fit your needs with our alteration department. Whether you need to add another garage stall, change the front elevation, stretch the home larger or just make the home plan more affordable for your budget we can do that and more for you at Ahp. Unless you purchase an unlimited use license or a multi-use license you may only build one home from a set of plans. Plans cannot be re-sold.
