## Plan Description

A tasteful array of exterior textures complements the smart interior design of this rustic, craftsman-style house plan. A covered front porch leads guests inside, where you will notice the large open living area under a soaring vaulted ceiling with exposed wood beams. The first room you will enter is the family room which is warmed by a fireplace. The dining room flows perfectly into the kitchen with its large island and walk-in pantry. The dining room leads to the back yard through a sliding rear glass door. The bedrooms are separated nicely from the living area for maximum privacy. The master bedroom lies under a beautiful tray ceiling and includes his/her vanities and a walk-in closet. Bedrooms 2 and 3 share a conveniently located hall bathroom. The home's oversized 3-car garage is accessed through a utility area which includes a laundry room and a mudroom, complete with bench, lockers and a handy catch-all area.
