Plan Description

The Wakefield plan is a stunning Barndominium style house plan. The barn-like exterior showcases board and batten siding, large windows, and barn doors. Just inside the side entry of the home, you'll find a practical office that is perfect for anyone who works from home. The great room, kitchen, and dining room flow seamlessly in a wide open layout. The high ceilings in the great room make the space feel massive. A fireplace warms the great room and is flanked by built-in bookshelves. The kitchen includes a large island and a walk-in pantry. The master suite is situated on the right side of the home for privacy. The master bathroom includes a soaking tub, his/her vanities, an enclosed toilet, and a walk-in shower. The master closet has convenient access to the laundry room. On the left side of the home, bedrooms 2 and 3 share a centrally located hall bathroom with the main living area. An amazing loft overlooks the great room. The home's large 3 car garage has a high cathedral ceiling and accesses the home through a mud room that includes a bench and lockers.
